HORSE AND TRACK.

Good grooming brings comfort to horse and profit to owner.

Charleston, 2:15, is now the fastest of the get of Bourbon Wilkes.

There were seventy-five trotting meetings in the United States last week.

When Allerton trotted in 2:10 he carried five ounces forward and three ounces behind.

Allerton is still king, after having the same work as Nelson, 2:10, for a week. He lowered the stallion record last Saturday to 2:09.

Pat Downing's 2:13, at Independence, on the 4th inst., is not only the fastest mile by a new trotter, but is the fastest record ever made by a stallion the season he first entered the 2:30 list.

Kentucky still keeps somewhere near the front. Nancy Hanks and Monbars have been doing some phenomenal work away from home, besides several that have won great fame in the Kentucky Circuits.—[Kansas City Live Stock Indicator.]

Under the new rules Electioneer now has seventy-eight standard trotters and one pacer to his credit. George Wilkes has sixty-five trotters and seven pacers; Blue Bull seventy-five trotters and six pacers; Happy Medium fifty-nine trotters and three pacers.

Beatrice, by Cuyler, is represented on the turf this year by two faster trotters in the first and second generation than any other mare. She is the dam of Prodigal, 2:17, and her son Patronage is the sire of Alix, three-year-old record 2:16. She is also the dam of Patron, that made a record of 2:14 a few years ago.

"Judges, I can't hold this horse," said a driver in a 2:30 class at Dubuque, Iowa, a few days ago when the jockey was taken to task by the occupants of the judges' stand for persisting in leading the pole horse. "Twenty-five dollars will put strength in your arms, perhaps," replied the judge, and thereafter there was no more jockeying in scoring for that race.

Almont Aberdeen is a late addition to Aberdeen's 2:30 list. He took his record of 2:22, at Omaha, Neb., a few days since losing the first heat. He won the second, third and fourth in 2:22, 2:29, 2:29. His dam is Brightness, by Almont, second dam Bloom, by Heacock's Ashland, (to be sold at P. Bros., sale at Mt. Sterling, Ky. October 8 and 9); third dam Lady Rat, by Toronto Chief, saddle record 2:44, sire of Thomas Jefferson 2:23 third dam by Old Kentucky, said to be thoroughbred; fourth dam by M. M. Redwine. Almont Aberdeen, 2:22 was bred by Gen. W. T. Withers and now belongs to Dr. Halliday, Omaha, Neb. He was originally christened Roter.

The trotting season is not confined to the track, but is useful on every hand. On the road he is great; on the farm he does the work of a mule, plowing, harrowing and pulling heavy loads. In cities he pulls butcher-carts, milk wagons, buggies, omnibuses and express wagons, and is found indispensable in many other places where nothing fast horses can be used. Horses make trotting race horses are about in every hundred, and the who breeds a common mare to a fine bred horse and fails to get a 2:30 performer need not be disappointed, has some assurance of a nice lot that will be worth three colts a scrub horse. What could a roadster be sold for? It would be to say \$300, while a scrub will sell for \$100, and perhaps a good deal, and cost the same to raise.

The following horses from this county were at Cynthia's trot last week: Dr. ant had his fine young mare Lad, that he sent for a record. Stained a mark of 2:36. The track slow, being very soft. This mare George Steck, and will take a lot of 2:30 on a good track. Boss, had three head, Folly, Knud and Tracy. Folly started in Fall Tuesday, and was beaten by York Central, 2:18, in a very close, in 2:21, 2:20. Folly again on Friday, and obtained a 2:21. She is likely to trot beat 2:20 before the sale. Tracy tried on Friday and made a 2:26. Tracy is fast and has his record on a good track, though got down in his st Wednesday night and strained his legs so

BEAN BROS., Mt. Sterling, Ky.

at 4 o'clock, Friday afternoon, and they retired to the jury room. The jury was out all night, and up to eleven o'clock Saturday morning.

Many conjectures were indulged in as to the verdict, if any, that the jury would render. All doubts and conjectures were set aside however, when the jury filed slowly down the aisle of the court room at exactly ten minutes past eleven and halted in front of the Judge's stand. In answer to Judge Cooper's inquiry, "Have you found a verdict, gentlemen?" the foreman, in a voice not unmixed with emotion, said: "We have, Your Honor."

"Read the verdict, Mr. Clerk," said Judge Cooper. Then Clerk Capt. W. P. Conner read in faltering tones: "We, the jury, find the defendant, Geo. F. Green, guilty, as charged in the indictment, and fix his punishment at hard labor in the penitentiary for life."

The only sign of emotion evinced by Green as the terrible words which took from him his liberty for life were being read, was a slight twitching of the muscles of the face and nervously pulling his beard. After reading of the verdict, Judge Cooper ordered the Sheriff to take Green to jail. Meanwhile, his counsel announced their intention to ask for a new trial, and at once began preparation of their papers. The plea of the attorneys for the defense, asking for a new trial, was overruled and the only hope is now to take the case to the Court of Appeals.

Court reassembled at one o'clock, and after some routine business, Judge Cooper said: "George Green, stand up." The prisoner arose firmly, and after the usual lecture the Judge said: "It is the sentence of this court that you be taken to Frankfort and confined in the State prison at hard labor for the rest of your natural life." Thus ends one of the most noted trials that ever took place in this county.

George Green prior to this trouble bore a good reputation, and was considered a man of undaunted courage. So when he was first arrested, people were slow to believe that he would resort to such methods as shooting from ambush. He was first tried before Judge C. W. Goodpaster, and in

the judgment of that court the evidence was not sufficient to bind him over. However when the grand jury met he was indicted for murder in the first degree.

The Sheriff was ordered to rearrest him, so the latter went to his house and Green refused to come to town with the Sheriff, but said he would come in and surrender himself. This he did, and the Sheriff then accompanied Green to Mt. Sterling to see Judge Cooper in order to ascertain whether his case was a bailable one. Judge Cooper decided it was, and Green was admitted to bail in the sum of \$10,000. Green was tried at the next session of the court, but the result was a hung jury. The trial was postponed the two following sessions, called again the second day of this term of the court, with the above mentioned result.

Green was ably defended and vigorously prosecuted, and thus ends one of the most interesting trials ever held in this court house. Green's counsel will probably take the case to the Court of Appeals.—[Owingsville Outlook.]

We hear a wide-spread complaint especially among our farmer friends, that their boys go off to the West to seek their fortunes instead of settling at home. Has it ever occurred to these same complainants that the great bustling West is filled with railroads that have opened up a thousand and one avenues for business, whilst our State is filled with a class of men who oppose all progress in this direction, and thus deliberately cut off the young man the many opportunities that the great West delights in holding out to him. Is it to be wondered at that the boys are going West?

Several gentlemen were discussing the refusal of the Magistrates to submit the proposition to vote aid to the Midland R. R., when one took occasion to say: "The one reason I am against the new Constitution is that it will not let me help to vote a tax on a d—m stingy fellows, who by their miserly instincts have managed to scrape together some money, and who thenceforth think it their duty to stand in the way of all progress." Another said: "The one reason above all others that I am for it, is that it cuts down the number of Justices of the Peace, and I hope to live to see the day when those that it does leave to us will be only a memory of what has been." They both want the road.

The board of Magistrates met on Wednesday, at 4 o'clock, p. m., to consider a proposition from the Kentucky Midland Railroad Company, to extend their road from North Middletown or Sharpsburg, to this place, if the county would vote them a subscription to aid them in so doing. Mr. V. L. Clark, on behalf of the R. R. Company, presented substantially the following proposition:

"For a subscription on the part of the county of \$75,000 in 30 year bonds, bearing five per cent, the company proposes to build within three years from Jan. 1, 1892, a standard gauge road from some point within a mile of North Middletown or Sharpsburg, and run cars on it to this city; and for a subscription of \$50,000 to extend said road within the same time to a junction with the K. U. railroad at or east of Indian Fields; the bonds to be issued for each section when completed and in operation. The bonds to be paid at par, with accrued interest, at the option of the county, any time after ten years from their issuance, and the road not to be mortgaged before its completion. Mr. Clark further agreed that his company would enter into a contract allowing the county to transfer its subscription to any other company provided the K. M. Co. failed to comply with its contract within a reasonable time."

Speeches were made for and against the proposition, and upon a vote being taken the result stood as follows:

FOR SUBMISSION.

Esqs. J. T. Highland, H. L. Jones, R. B. Crooks.

AGAINST SUBMISSION.

Esqs. J. W. Morris, W. H. Prewitt, W. W. Barrow, I. N. Horton, E. E. Keith, J. F. Richardson, J. T. Chse, W. A. Durham, Jno. A. Thompson.

We believe the gentlemen who voted against the submission of the proposition were honest in their convictions that they were acting for the best interest of the county. But we also believe they exhibited very poor judgment. We think too, their duty ends when they shall have seen that a proposition such as was presented, was properly guarded, so that the people's interest would not be jeopardized. After they had done that, as we understand it, their duty is ended, and the people should be allowed to say whether or not they want to burden themselves with a tax. Still the majority of the magistrates, who are all honest men, thought otherwise, and though we may be sorely disappointed in their inability to see this matter as we do, we are not disposed for one moment to question either their honesty of purpose or the careful consideration of the best interest of their constituents.
